UK Launch Price £ 418000

Between 1960 and 2002 Maranello Concessionaires/Ferrari UK imported over 9500 Ferrari cars to distribute via their UK dealer network and all records are constantly updated.

Since Ferrari started production of both road and racing cars in 1947 the factory in Maranello has produced over 96,000 cars for the world and you should be aware that specifications are different for various LHD and RHD markets. You should always obtain the chassis number prior to purchase, as many cars sold through non-official Ferrari dealers are not original UK cars.
